To: Nano-Z Coating LTD.

### **Environmental Air Testing Results.**

In the period of time between August 18<sup>th</sup> and August 22<sup>nd</sup> 2019, our company performed environmental air sampling for Nano-Z Coating LTD at the Na'an waste disposal site.

A comparison was made to the Israeli (according to the threshold level presented in the law of clean air, 2011) and American (according to threshold level presented in the US EPA 81102, 2006) standards. Results are shown in the following tables:

<b>Testing Point A</b>						
Sampling date	Pollutant	Concentration (mg/m <sup>3</sup> )	Israeli Standard (mg/m <sup>3</sup> )	Percentage of Israeli Standard(%)	US EPA Standard (mg/m <sup>3</sup> )	Percentage of US EPA Standard (%)
18/08/2019	PM10	0.0311	0.135	23.1	0.150	20.8
19/08/2019	PM10	0.0183	0.135	13.5	0.150	12.2
20/08/2019	PM10	0.0305	0.135	22.6	0.150	20.3
21/08/2019	PM10	0.0511	0.135	37.9	0.150	34.1

<b>Testing Point B</b>						
Sampling date	Pollutant	Concentration (mg/m <sup>3</sup> )	Israeli Standard (mg/m <sup>3</sup> )	Percentage of Israeli Standard(%)	US EPA Standard (mg/m <sup>3</sup> )	Percentage of US EPA Standard (%)
19/08/2019	PM10	0.012	0.135	8.6	0.150	7.8
20/08/2019	PM10	0.046	0.135	33.9	0.150	30.5
21/08/2019	PM10	0.076	0.135	56.6	0.150	50.9

**According to the air testing results and in comparison to the Israeli and American standards, no irregularities in emission values were found.**

Best regards,  
Oz Amit, CEO  
AirLab Air testing Ltd.
